

Real factory. Real product. Real revenue.

NUMAT is a Philippines based manufacturer of premium engineered bamboo for the built environment. We turn locally grown *Dendrocalamus asper* into structural and finish products that replace tropical hardwood, MDF, and concrete in residential, hospitality, and commercial projects.

AT A GLANCE

FOUNDED	NUMAT Sustainable Manufacturing Inc.
FACTORY	Manolo Fortich, Bukidnon, Mindanao, Philippines
MATERIAL	Dendrocalamus asper (giant bamboo), engineered into boards, panels, doors, slats, and flooring
BACKED BY	Wavemaker Impact (Singapore)
STATUS	Operating factory, live product line, paying customers, active export pipeline

PRODUCT LINE

NuBam Boards	Structural and surface boards. Used in furniture, panels, joinery, custom millwork.
NuWall	Interior wall cladding and acoustic panels. 8 offered SKUs. Made to order in additional formats on request.
NuFloor	Engineered bamboo flooring. Standard 300 x 1200 x 16 mm and additional variants.
NuDoor	Solid bamboo door blanks and finished doors for residential and hospitality.
NuSlat	Decorative slat systems for ceilings, feature walls, and screen partitions. MOQ 500.

WHY NUMAT

We are the offtaker Most nature investments fund supply. We close the loop by buying the bamboo at commercial volumes and turning it into building products with paying customers.	Vertical integration Smallholder farms to finished product, traceable from culm to invoice. One factory, one team, one species.	Live revenue, not pilot Operating factory in Bukidnon, paying enterprise accounts, multiple invoiced orders in 2026. Not a deck. A business.
